CAREER OBJECTIVE

Committed to work in competitive and make solid contribution both as an individual and as a useful team member of professional in a quality conscious organization

EDUCATION

The University of Texas Rio Grande Valley

Expected Graduation: December /2026

Master's in computer science

- A comprehensive two-year master's program focused on advanced concepts in computer science.
- Relevant coursework: Robotics Programming, Image Analysis, Data Mining and Data Warehousing, Computer Architecture, Digital Image Processing, Theory of Computation.

Bacha Khan University Charsadda, Pakistan.

January 2022 / - January / 2024

Master of Science In Computer Science

CGPA: 3.48 Out of 4.0

- It was a two-year degree program which was all together around 16 years education.
- The major courses included:
 - Object-Oriented Programming
 - Data Structures and Algorithms
 - Operating Systems
 - Computer Networks
 - Software Engineering
 - Database Management Systems
 - Artificial Intelligence
 - Web Development

University Of Peshawar Pakistan.

March 2018 / April 2021

Bachelor of Science in Computer Science

CGPA: 3.13 Out of 4.0

- It was a two-year degree program which was all together around 14 years education.
- The major courses included:
 - Introduction to Computer Discrete Mathematics
 - Data Structures
 - Database Systems
 - Digital Logic Design
 - Computer Programming
 - Object Oriented Programming
 - Computer Networks
 - Operating System

PROFESSIONAL CERTIFICATIONS

The professional institute of IT Peshawar (KPBTE)

March / /2017 – July/ /2018

Diploma in Information Technology

- It is a one-year diploma that comprises the following courses.
- Operation system,
- computer programing C/C++,
- computer networking,
- Information and communication technology
- Introduction to Data Base,
- MS access
- E-Commerce & Web Technology
- Graphic Design
- Office automation (word, excel, power point)

University of spoken English and computer science

June / 2019 – August / 2019

Certificate of Web development

- HTML
- CSS
- PHP
- Wordpress
- MYSQL

Certified to proctor ACCUPLACER exams at the UTRGV

Valid through May 20, 2026

ACCUPLACER Certificate of Test Administration

- Issued by: College Board
- Certified to: Proctor ACCUPLACER exams

Cisco Networking Academy

July/ 2025

Introduction to Cybersecurity

- Cybersecurity fundamentals and real-world impact
- Common cyber threats: malware, phishing, social engineering
- Basic defense strategies: network security, data protection, privacy
- Risk management principles and cybersecurity roles in business

Cisco Networking Academy

Ethical Hacker

- Introduction to Ethical Hacking & Penetration Testing
- Planning and Scoping Penetration Testing Assessments
- Information Gathering & Vulnerability Scanning
- Social Engineering Attacks
- Exploiting Wired and Wireless Networks
- Exploiting Application-Based Vulnerabilities
- Cloud, Mobile, and IoT Security
- Post-Exploitation Techniques
- Reporting & Communication

RESEARCH PROJECT

Bacha Khan Universty Charsadda Pakistan

May / 2023 – October / 2023

Doctor Appointment Management System

- **Developed** a web-based **Doctor Appointment Management System** to automate the manual appointment process.
- **Implemented** computerized equipment and full-fledged software to streamline operations.
- **Ensured** secure storage of valuable data for long-term accessibility and management.
- **Optimized** information retrieval for easy access and efficient manipulation.
- **Enhanced** system reliability by integrating advanced database management techniques.

Underwater Wireless sensor

- CRPQ: A novel cooperative routing protocol with quality-of-service awareness for underwater wireless sensor networks

EXPERIENCE

Jinnah Islamia College, Peshawar, 25000

February/ 2024 – December / 2024

Instructor of Computer Science

- **Taught** Computer Science to 1st-year and 2nd-year students at Jinnah Islamia College Peshawar.
- **Delivered** lectures on programming languages, algorithms, computer networking, databases, and web designing.
- **Developed** and **updated** lesson plans and course materials to align with educational standards.
- **Created** and **graded** assignments, projects, and tests to assess student understanding.
- **Implemented** interactive teaching methods to enhance student engagement and learning outcomes.
- **Mentored** students in practical applications of computer science concepts.
